Try the new cross-platform PowerShell https://aka.ms/powershell

PS C:\Users\deli> iex (New-Object Net.WebClient).DownloadString('https://clt.cloud.ibm.com/install/powershell')
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
PS C:\Users\deli>
```

The screenshot shows a Windows PowerShell terminal window. The title bar reads "Windows PowerShell". The command prompt shows the user 'deli' at 'PS C:\Users\deli>'. The command executed is `iex (New-Object Net.WebClient).DownloadString('https://clt.cloud.ibm.com/install/powershell')`. The output shows the download and installation process: "Download complete. Executing installer..." and "Install complete. Please restart to make the modification effective." The taskbar at the bottom shows the Windows Start button, a search bar, and several application icons. The system tray on the right shows the temperature as 30°C, the time as 11:15, and the date as 31-10-2022.
